PROFESSIONAL SUMMARY

Results-driven Full-Stack Web and Mobile Developer with hands-on experience building scalable, responsive, and cross-platform applications. Proficient in the MERN stack (MongoDB, Express.js, React, Node.js), TypeScript, Next.js, and React Native. Experienced in developing RESTful APIs, authentication systems, database-driven applications, and deployment workflows across Vercel, Render, APK, Google Play Store, and Apple App Store environments. Strong interest in clean code, intuitive UI/UX, performance optimization, and delivering reliable digital solutions from concept to deployment.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, React, Next.js, React Native, Tailwind CSS, Responsive Web Design

Backend: Node.js, Express.js, RESTful APIs, Authentication, Server-Side Development

Database: MongoDB, PostgreSQL, Prisma, MongoDB GridFS

Tools & Workflow: Git, GitHub, npm, Postman, VS Code, CI/CD Pipelines

Hosting & Deployment: Vercel, Render, Netlify, GitHub Pages, APK Packaging, Google Play Store Deployment, Apple App Store Deployment

Design & Soft Skills: UI/UX Design, Graphic Design, Problem Solving, Team Collaboration, IT Infrastructure Basics

PROFESSIONAL EXPERIENCE

Software Development Intern | Kredibble IT Limited

February 2026 – June 2026

- Assisted in the development of an e-commerce mobile application for university students, helping shape features that support product discovery, campus-focused buying and selling, and a user-friendly shopping experience.
- Contributed to the development of a web-based social media management system that enables users to upload and publish content across multiple social media platforms from a single interface.
- Supported feature implementation, testing, debugging, and general quality improvement activities for both web and mobile applications.
- Worked with team members to improve usability, application flow, and reliability while aligning technical tasks with business and user needs.

Web Developer & Graphic Designer | Intime Innovation Enterprise, Ghana

2022 – Present

- Design and develop responsive web applications using React, Next.js, TypeScript, HTML5, CSS3, and Tailwind CSS, with attention to usability, responsiveness, and maintainable front-end structure.
- Build and maintain backend systems with Node.js, Express.js, and MongoDB, including database integration and management with Prisma.
- Develop cross-platform mobile applications using React Native, generate APK builds for Android, and prepare mobile releases for Google Play Store and Apple App Store deployment workflows.
- Implement CI/CD pipelines to improve testing, build, and deployment efficiency across Vercel and Render hosting environments.
- Create digital branding assets and graphic materials that support product presentation and client-facing communication.
- Collaborate with cross-functional teams to deliver end-to-end solutions that improve performance, usability, and user experience.

SELECTED PROJECTS

Online Shopping and Delivery Platform

Technologies: React, Next.js, TypeScript, Node.js, Express.js, MongoDB, Vercel, Render

- Built a full-featured e-commerce platform with secure JWT-based authentication and structured user access flows.
- Developed product, user, and order management functionality backed by scalable RESTful APIs.
- Implemented multimedia product uploads, shopping cart workflows, and checkout-related interactions to support a complete customer journey.
- Deployed the frontend on Vercel and backend services on Render to improve accessibility and availability.

Media Upload Web and Mobile Application

Technologies: Node.js, Express.js, MongoDB, React Native, APK, Google Play Store, Apple App Store

- Developed a cross-platform application for secure upload, storage, and sharing of images and videos.
- Built authentication features including user registration and login functionality.
- Integrated MongoDB GridFS for efficient server-side media storage and retrieval.
- Created a React Native mobile version, produced Android APK builds, and prepared deployment workflows for Google Play Store and Apple App Store.
- Hosted backend API services on Render.

E-Commerce Mobile Application for University Students

- Contributed to a mobile commerce solution tailored to the needs of university students.
- Supported features for product browsing, ordering, and a simple user experience for student buyers and sellers.
- Helped deliver a practical digital platform aimed at improving campus-based online transactions.

Social Media Multi-Upload Web System

- Contributed to a web-based system that allows content to be uploaded and managed across multiple social media platforms from a unified dashboard.
- Helped improve posting efficiency and reduce repetitive manual work involved in cross-platform content publishing.
- Supported testing, debugging, and feature refinement to improve usability and reliability.

EDUCATION

Diploma in Computer Science | Paragon Executive Institute, Ghana

Graduated: October 2025

Relevant Coursework: Web Development, Database Systems, Software Development, Mobile Application Development, IT Fundamentals

CERTIFICATIONS

Full-Stack Web Development | SPtech Coders Academy

June 2025 – August 2025 | Certificate ID: SPCA-FSWD-2025-78432 | Issued: September 2025

JavaScript Programming | Self-Paced Online Course

ADDITIONAL INFORMATION

Areas of Interest: Web Application Development, Mobile App Development, Cloud Hosting, Deployment Workflows, Technology Innovation, Startups, Entrepreneurship, Open Source Contribution
